

University of Glasgow
School of Computing

1. I have freely consented to take part in a scientific study being conducted by William Kavanagh and William Wallis.
2. The study has been explained to me and I understand the explanation given and what my participation will involve.
3. I understand that I am free to discontinue my participation in the study simply by ceasing to use the application provided.
4. I understand that, upon request, my information can be removed from the collected dataset by contacting any person involved in the experiment using the contact details provided in the application.
5. I understand that the results of the study will be treated in strict confidence and that I will remain anonymous. Within these restrictions, results of the study will be made available to me at my request.
6. I understand that the anonymized dataset of gameplay information, as well as general information related to players' interactions with the application itself, may be made available for the purposes of open science.
7. I understand that, at my request, I can receive additional explanation of the study after my participation.
